

# ACCESS THE CNS

## A CONTACT SHEET FOR EDUCATORS

The **Canadian Nuclear Society (CNS)** provides Canadians interested in nuclear science and technology with a forum for technical and related discussion. The CNS endeavours to improve public knowledge in this area, through educational initiatives and by direct contact with CNS members. Many of our members are scientists and engineers working in the fields of nuclear science and technology. They comprise a valuable knowledge resource.

The following are three ways that you can access this resource:

### 1. CNS Education and Communication Committee

This committee exists to facilitate the exchange of information between CNS members and the public, and to develop educational programs in this regard. As a science educator, your input is important in ensuring that we allocated CNS resources where it is needed the most.

Contact: Dr. Jeremy Whitlock CNS-ECC, email: whitlockj@aecl.ca, phone: 613-584-8811  
AECL, Chalk River, Ontario, K0J 1J0

or Peter Lang CNS-ECC, email: plang@drlogick.com, phone: 705-466-6136  
2910 Concession 8, R.R. #1 Glen Huron, Ontario L0M 1L0

or Bryan White, email: bwhite\_cns@sympatico.ca, phone 613-584-4629  
PO Box 1883, Deep River, Ontario, K0J 1P0

### 2. CNS Internet Website

The CNS is on the Web at <http://www.cns-snc.ca>. From here you can find information on national and local programs, and read more about the objectives of the Society. The website is administered by the Internet committee of the CNS. The CNS Office can be emailed at [cns-snc@on.aibn.com](mailto:cns-snc@on.aibn.com).

### 3. Local CNS Branches

There are fourteen local branches of the CNS, in five provinces. Each branch holds meetings with interesting speakers, and the public is welcome to attend. These branches may also receive a portion of the **CNS Education Fund**, to be administered locally (for science fair prizes, assistance in obtaining special equipment for high school science experiments, scholarships). In addition, each branch represents a local wealth of expertise that can be drawn upon for classroom presentations, participation in science fairs and other community events, or simply to answer questions. Listed below are the contact persons for each branch (usually the chairperson of the branch executive). Contact can also be made via our main website, given above.

#### Alberta
