

NUCLEAR ENERGY FORUM

Monday / October 20 / 7 p.m.

National speakers from both sides of the nuclear energy debate will help us learn about this complex and timely topic. Jeremy Whitlock, a reactor physicist at Atomic Energy of Canada Ltd's Chalk River Laboratories and a Fellow of the Canadian Nuclear Society, will speak in favour of nuclear energy. Gordon Edwards, a mathematics professor at Vanier College and a founder and current president of the Canadian Coalition for Nuclear Responsibility, will speak against it. Get the facts and form your own opinion.
